Profile

I'm a 3rd-year Information Systems Engineering student focused on analytics and data science. I enjoy working with data to extract insights, solve real-world problems, and build value through data-driven solutions.

I have experience in SQL, Excel, Power BI, Tableau, and Python, as well as in data cleaning, analysis, and working with cloud platforms such as Azure and AWS.

I'm also interested in distributed systems and continue to explore and develop my skills in that area. I'm open to internship opportunities where I can contribute, grow, and apply my passion for data.

Education

Mehmet Akif Ersoy University   2022 – 2026

Skills

- SQL
- Microsoft Excel
- Tableau
- Data Visualization
- Microsoft Azure / AWS
- Python (Pandas, NumPy)
- Microsoft Power BI
- Data Cleaning
- Git & GitHub
- Distributed Systems

Languages

- English (Fluent)
- Turkish (Native)
